ALL THINGS NEBRASKA

All Things Nebraska is a dynamic information hub created for University of Nebraska faculty, community leaders, and decision-makers. This user-friendly platform offers interactive maps, reports, and insights into the pressing issues facing Nebraskans, delivering high-quality, up-to-date data that supports informed learning, discovery, and engagement. With access to national, state, and local data, users can explore resources designed to enhance decision-making. The site empowers faculty, staff, and all Nebraskans to assess, analyze, and visualize data, paving the way for a brighter future for our state.

Grant Helper Tool
- Compiles information for grant proposals
- Displays data visually and in easy-to-read charts and graphs
- Offers downloadable reports in a variety of formats

NE County Report Card
- In-depth look at data by county
- Quick three-step process to create assessments of multiple counties
- Built-in state and national benchmarks to facilitate quick comparisons

Nebraska Map Room
- Hosts visualizations of 30,000 mappable data layers
- Provides powerful query tools, data export capability, and annotations
- Offers downloadable and shareable reports for additional analysis
