

Food Safety Seminar Series

FALL 2024

Sefa Işık, Ph.D.

Lecturer, Department of Food Processing
Technical Sciences Vocational School
Muş Alparslan University
Muş, Turkey

“How do microgreens get contaminated and what can we do to ensure food safety?”

Sefa Işık, Ph.D. is a lecturer in the Department of Food Processing at the Technical Sciences Vocational School of Muş Alparslan University. He began his doctoral studies in Food Engineering at Atatürk University in 2019 and completed his Ph.D. in 2023 with a dissertation titled "*Monitoring of Pathogen Transfer in Microgreen Production and Determination of the Effectiveness of Ultraviolet-C in Pathogen Reduction.*" He earned his Master's degree in Food Engineering from Harran University in 2014 and completed his undergraduate studies in Food Engineering at Atatürk University in 2012.

Dr. Işık started his academic career at Malazgirt Vocational School in 2015 and has been working at Muş Alparslan University since 2019. His research interests include food microbiology, fruit and vegetable microbiology, and food safety. He has authored publications in international journals and is a member of the International Association for Food Protection (IAFP) and the Union of Chambers of Turkish Engineers and Architects (TMMOB) Chamber of Food Engineers. Administratively, Dr. Işık serves as the Assistant Director of the Central Research Laboratory at Muş Alparslan University. He is married and has two daughters.

Wednesday, September 4 at 12:00 pm (CST)
