VOLUNTEERS NEEDED FOR NEBRASKA RESEARCH

UNL's **Nebraska Food for Health Center** and **Food Science & Technology Department** are studying how foods affect our health and the millions of bacteria that live in our gut.

- You may qualify for the study if you are:
 - At least 19 years old
 - Able to collect and deliver a stool sample to Innovation Campus (1901 N 21st Street) within 4-hrs of collection
- The study involves 2 visits to complete lifestyle surveys, provide a stool sample, and have blood drawn. The total amount of time for visits is approximately 5 ½ hours.
- You may receive \$60 for your participation.
