

VOLUNTEERS NEEDED FOR RESEARCH STUDY

The Effect of Food Ingredients on Gut Microbiome

Nebraska Food for Health Center and Benson Lab is conducting research to understand how different food ingredients impact the gut microbiome

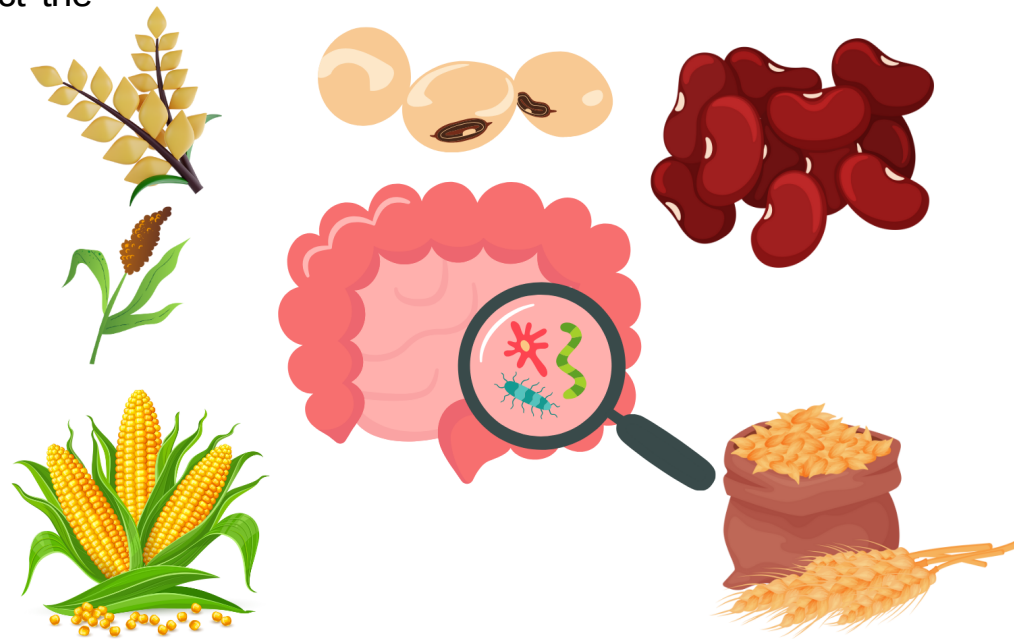

You may qualify if:

- you are at least 19 years old
- Generally healthy

The study involves stool sample collections and answering questionnaires.

Participation will take place at the Nebraska Food for Health Center Research Clinic (1901 N 21st Street, Room 101) on Innovation Campus in Lincoln.

You will receive a \$20 electronic gift card for your participation. This study does not involve consuming any test food products.
