Food For Health Seminar Series

Sabita Roy, Ph.D.

Professor and Vice Chair for Research
Miller School of Medicine

“Linking the Gut Microbiota to the Opioid Crisis”

The seminar will focus on how and why opioids prescribed for pain management lead to opioid associated co-morbidities such as tolerance and dependence. The role of the gut microbiome in driving these co-morbidities will be discussed.

Friday, September 20th, 2024

Virtual Presentation

Seminar: Noon-12:55 pm

Food Innovation Center (FIC): Room 277
